

◆ POST - MONITOR ◆

VOLUME 10 ISSUE 2**Membership—673, Lifetime 493 (17 Distinguished)****2002 JUNE**

The Alumni Anthem
Over the years and at
younger ages ...
'GS,' 'E' and 'O' were our
gauges

But now we've reached the
best of stages
Being one of the
Command's Sages

Long-Range Detection
denotes and represents
all who served the
mission throughout its
inception and history

Recognized for 50 years
of service to our country
in September 1997
1947 – 1997

**SAGE SPOTLIGHT**

THE LONG-RANGE ALUMNI ASSOCIATION PRESENTS

**JOE MARSHALL
ASSOCIATION****PRESIDENT, 2001-02**Next March Joe will com-
plete 27 years of Civil

Service, all with AFTAC. However, his association began 33 years ago ('69) when he worked for a small research company in Fort Worth, TX, who was given an AFTAC contract. Following the successful completion of this, and another contract, Joe was asked in '71 to move nearer the AFTAC HQ's which, at that time, was in VA. He did so, and right after moving into a new home he was told the command was transferring to FL.

Being a good 'camp follower' Joe again moved in the summer of '72 where he continued contract support of the AFTAC Space Program. In early '76 his contractor was considering moving him back to TX. At the same time he was asked to apply for a civil service position with the command. After some negotiation, he started his official tenure with AFTAC on 1 March 1976. Since that time Joe has supported satellite programs in many capacities and today is the Chief of TTA.

Joe says as he looks back over his career he would not change anything, recognizing the Air Force's first job is to fly and fight, however, the AFTAC mission is dedicated to keeping the President and policy makers informed and contributes to their efforts to maintain peace. Joe adds, 'I pray that all those who served, are serving, and will serve in AFTAC, receive the Lord's blessing: 'Blessed are the peacemakers...'

ALUMNI ALERTS-WHAT'S COMIN' UP

WHERE, IN THE BEST MISSION ALERT TRADITION, WE ASK YOU TO 'REPORT IN'

NATIONAL REUNION**AFTAC HEADQUARTERS, PATRICK AFB, FL****TENTATIVE DATES, 9-11 MAY 2003**

See the Vice's words about this on page 15!!!!!!

ALUMNI EVENTS-WHAT'S GONE OFF

WHERE, AGAIN IN THE BEST MISSION TRADITION, WE REPORT 'EVENT DATA'

**"CMSGT PAYNE, ALUMNI OF THE YEAR, 2001"
HONORED AT AFTAC COMMAND CEREMONY**

THE EDITORS, 2002.4.24

Col Horton CMSgt Armitage
 CMSgt (Ret) Payne

For the seventh time in as many years, an Alumni was honored at the annual Command Award Banquet.

Jim received the award from the Commander and the Superintendent. Many active-duty were also recognized that night—several of these are listed in that section of the newsletter.

In addition to the Commander, the Superintendent, AFTAC's Diamond, CMSgt Gilroy, and Jim and his wife, Myrna, other alumni, and their spouses, were spotted. These included Frank and Beverly Hall, Carl and Mayme Gailey, John and Chris Horsch, Sam and Kathy Sorice, Judy

(Continued on page 4, left column)

ASSOCIATION HONOR ROLL

ALUMNI OF THE YEAR RECIPIENTS

JIM PAYNE 2001

BEN VLASSICK '00-JOHN HORSCH '99-FRANK HALL '98
JUDY MILAM '97-CARL GAILEY '96-CLARK CREERY- '95

The Association formed on March 12, 1985 and was chartered in 1986. It was created to provide a forum for those who wish to maintain an ongoing connection with the organization and its people, both active-duty and retired. Membership is open to current and former employees of all organizations associated with Long-Range Detection (LRD) (AFMSW-1, 1009th SWS, AFOAT-1, 1035th FAG, and AFTAC), and any subordinate field detachment.

Florida chapter

Dues, \$10 per year based on FY, 1 Oct-30 Sep, payable in Oct/\$75 for life. You're encouraged to attend monthly meetings beginning at 5:30pm on the second Monday of each month (verify if coming) at the AFTAC HQ's building (989) at Patrick AFB, FL. For information: Jim Payne, (321) 777-4731/paynejb@juno.com, Carl Gailey, (321)777-0569/gaileyc@juno.com, Judy Milam, (321)254-8878/jem2415@worldnet.att.net, or Pat Snyder, (321)494-6867/patricia.snyder@aftac.pafb.af.mil. Dues, membership applications, and queries/information should be mailed to:

**Long-Range Detection Alumni Asc., PO Box 254892
Patrick AFB, FL 32925-0892**

The Chapter publishes a quarterly (Mar/Jun/Sep/Dec) newsletter, 'Post-Monitor' (staff data below), (namesake of a prior active-duty publication, 'Monitor') & a Webpage,<http://www.csihq.com/aftacalumni>, with association & alumni information, 'Post-Monitor' 'Samplers' and back-issues and photos - WebMaster is Mike Black—Clark Creery writes an 'Upcoming Events' ('What's Happening') section.

Florida Chapter Board "PERENNIALS"-Alumni serving for five+ years. Frank Hall-President/Vice 89-98/01, Judy Milam-Secretary 89-00, Eunice Harris-Hospitality 89-00; Mary Welch-Membership 91-99; Carl Gailey-Treasurer 91-99, Swede Swansen-Publicity since 93

Colorado chapter

Formed in 1989, dues, \$5 per year, payable in February; chapter publishes a newsletter, 'Echoes' and supports a website, '<http://www.aftacco.org>': Webmaster, Bill Harris. They meet several times a year-for information, Bill Schmied, (303) 367-0625. There are ~130 members.

West Coast (California) chapter

Formed in 1999, dues, \$5 per year, \$50 for lifetime; for information-Joe Johnson, (916) 783-8676, 'TOD.Alumni@bigfoot'-mailing address:AFTAC Alumni Assoc., West Coast Chapter, 161 Southcreek Circle, Folsom CA, 95630-1510. They hold periodic meetings and socials, host a webpage and publish a newsletter, 'Depot Fallout.'

Long-Range Detection Alumni Honorarium

Several permanent and ongoing projects representing and honoring our people and it's history exist: Two of these, the 'Hall of Heritage' (with information and artifacts) and the Photos/Biographies of Alumni who served the command for 20+ years, are housed at AFTAC Headquarters. Another is an AFTAC display at the Encampment Wyoming Museum.

"A TEAM" ...of Horsches'

'58-'87

EDITORIALLY SPEAKING

10th Year Anniversary issue (or arguably more)

What does this mean...read on. The oldest 'letter' we have found disseminating information about the association is March '85, roughly 17-years ago and written following the initial 'set-up' meeting. Following that there were various letters/newsletters published but not on any type of recurring basis. Then, beginning in June, 1992, and continuing with this issue, it has been published on a routine basis, a 10-year period.

The 'letter' in March, '85, and newsletters from June, '92-June, '96, were published by Clark Creery. Following that, yours trulys (note the plural) have had the pleasure. We have kept many of Clark's idea's even to this day. His formatting style continues, the printing of mail is an ongoing process, and other important areas maintain his original style.

Our first issue, in June, '96, began by 'naming' the newsletter, 'Post-Monitor.' This was done in honor of a previously published active-duty newsletter bearing the name, 'the Monitor' - 'Post' was added as a recognition of our main readership, members who had previously served the command and are now 'Post Monitors.' Beginning with the June, '98 issue we even 'copied' the 'stylizing' of the word 'Monitor' from the original active-duty publication. Over the period of time we have been preparing this newsletter we have added the 'feature' section ('Commander's re-Call,' 'I Remember,' 'BS,' etc) and tried to organize it for ease of reading.

Sometime in '97, CSI and two employees who are association members, Mike Black and Dave Johnson, offered space on their website for an alumni webpage. This kind offer was immediately accepted. The benefits of this have been many—instant email notification (events, deaths, etc) to desiring alumni, association/alumni information and event information and pictures, and yes, copies of the newsletters, both 'Samplers' and 'Complete,' dating back to December '97.

We hope our enthusiasm and respect for being trusted with the 'Post-Monitor' editorship, and AFTAC history and tradition, over these years shows - we feel we 'write to' the best audience in the world. Thanks for your ongoing support!!

MAIL - CALL

Any requests for action should be sent to
Long-Range Detection Alumni Association
PO Box 254892

Patrick AFB, FL 32925-0892

Letters of a general nature, requesting no action, may be e-mailed to the editors, chrisjohn@juno.com

Letters may be edited for clarity and space; any opinions are those of the writer(s) and may not reflect Association belief or policy

'Welcome' new and returning alumni and those who drop us a line. We recognize all correspondence so your name, and the memories, may be recalled.

NEW/RENEWING SAGES

Chiang Mai, Thailand **02.1.23**

21-year AFTACer, 423, 301, 421, 46, HQ's, Lowry and Goodfellow. Presently, Detachment Chief at 415.

Gary L. Johnson

Melbourne, FL **02.3.15**

I look forward to being an active member.

(ref Mike Steskal's 'Smoking Hole' story, last issue)

Just thought I'd add my 2 cents worth since I remember this incident well. I was in the Technical Director's office and reviewed all Tech Reports (TR). What sticks in my mind is that one theory offered in the original draft TR was that the 'hole' may have been caused by 'voodoo' ritual. I'm not sure if this made it to the final report, but I suspect it didn't. Amazingly, since this report was published as unclassified/unlimited distribution, it's one of the few organization TR's that made it into the DOD repository and can be purchased by anyone.

Judy Milam thanks Judy, great story

Washington, DC **02.3.19**

(change of address)

Russell Lutton

Ann Arbor, MI **02.3.25**

(change of address) You are doing a fine job. We never realized what a job moving would be after living almost 36 years in one place. On active-duty the longest we stayed in one place was 4 years and I guess the least was 2 years.

Jack D. Wagley (Frances) thanks Jack

Cyberspace

2002.5.19

Here are good sites to get up-to-date information on Tricare for life and a quick update on nursing homes and hospitals stays and who pay what, '<http://www.nmfa.org/TFL.html>' and '<http://www.fra.org/tricare/tricare4life.html>'.

Frank Calenda

Editors: Ron Cook is an old friend of our Virginia days ('65-'70) with whom we have maintained contact. He is a very scientific and technical kind of guy, and a lot of fun to be around – he is intense in his work and belief ethics but still does not take himself too seriously.

While Ron was on active-duty (B systems) he became very interested in seismic waves and would often work many long hours on his own finding new recurring aspects of earthquakes and other phenomenon and reporting these up the chain of command. Another area Ron has long been interested in is convincing all who will listen in the logical method to 'date.' He convincingly argues we should begin with the year and proceed to the day (largest unit to smallest, YYYYMMDD), vs. the method we most often see in the military, DDMMYYYY, or in civilian quarters, MMDDYYYY.

We have supported Ron in this effort by using this dating method in this newsletter whenever we feel it is appropriate. Knowing many of you are technically oriented we thought you might find his quest interesting and recently asked Ron for a progress report on his effort. He provided the following synopsis:

I have made radio appeals on NPR at least six times and some of those broadcasts were national. I have made appeals on NASA television and friend Gene Smart saw a broadcast while in Florida and recognized me. I have that on tape and the appeal was made directly to panelists Ted Koppel, Dr. Edward Stone of JPL and others at the 2000 NASA Space Symposium. While there, I made personal appeals to Bill Nye, the Science Guy & Dr. Shirley.

Most don't tell me they are switching. If I happen by their site again and they have switched, they are spared another appeal. Presumably, those that switch do so out of rational thinking. Not so long ago, I felt there were enough out there that I would create a web page <http://cowaro.com>Date/TheGood.html> as testimony for others to see. My brother's headstone is there along with many that may or may not remember my pleading letters.

I made a few appeals to the Canadian Space Agency and many to our own. Canada did change shortly thereafter, but I've no way to judge my influence on their decision. I am just happy they did. The APOD actually told me in response to an nth appeal around 1999 Thanksgiving, that they would switch 2000 January 01. Not only did they, but their product retains the old format prior to that date which makes a pretty positive statement about what they did. I told Bob Nemiroff that I thought the APOD was a beacon to humanity and thanked him profusely for making the change.

My car license plate is 4Y-MM-DD and gets good exposure on I-95. Some accuse me of spamming, but that is hard to justify since I include valid name, address and phone number. I often offer a retort that accuses them of spamming with badly formatted dates.

TAPS In Memory of Those We Knew But Are Now Gone

Gen. Daniel Butterfield, 1862

Day is done, gone the sun,
From the lakes, from the
hills,
From the sky.

All is well, safely rest,
God is nigh,
Thanks and praise for our days,

'Neath the sun, 'neath the stars, 'neath the sky;
As we go, this we know:
God is nigh.

In Memory Of

Wherein Alumni share names of those gone but never forgotten...

Bennett L. Milana (LtCol, Ret), 02.3.18

John H. Hamlett Jr (Maj, Ret), 02.6.1, lifetime alumnus since '93. John served with the organization at HQ's Virginia, SPINSTRA and Guam.

Christopher (Chris) Brown, 02.5.31, Chief, Comm-Comp Sys Svc Division (SCS), 88-93

Rest in Eternal Peace

MONITORing Active-

Duty Doings' prepared by the editors from your inputs sent in from around the AFTAC World

Command Section

AFTAC Commander, 2001.02, previously AFTAC DO and before that, CC 91st Intelligence Sq and 694th Intelligence Group, Fort Meade, MD. He has a Bachelor of Science, Electrical Engineering, from the University of Southern California ('79) and a Master's from Defense Intelligence College, Wash. DC ('90). He is married to the former Dr. Lendra Persaud, they have a daughter, Denise, and a son, Brian.

AFTAC Superintendent, 2001.06, 20+-year AFTACer, enlisting 1980.02. Trained as a Scientific Measurements Technician and is a Distinguished Graduate from both the NCO and Senior NCO Academies and earned an MBA with honors. The Chief was selected the AFTAC Senior NCO of the Year in '92. He served at Dets 452, 423, 419 and in the HQs with the Subsurface Operations Branch and DO. His wife Sun Ah Yi is from Wonju, Korea. They have two children, Monica and Steven.

Det 452 Update (continued)

CMSGT STEVE ARMITAGE

If you recall, we left off last issue with a 'fuel seepage problem;' that being solved-we move on to other challenges.

Fuel wasn't the only environmental issue the Det had dealt with. In '99 their Radio Data Link (RDL) system was installed when they switched from Nickel-Cadmium to Lead-Acid batteries. Since then, 20 of these NiCad batteries had remained on top of the 2000 ft mountain, Maebong. The batteries were stored in environmentally sound containers, but still they posed a potential hazard. Those of you who are Det 452 alumni can appreciate the difficulty of hauling 70lb batteries, filled with corrosive chemicals, down the slopes of Maebong.

Luckily, help arrived in October from various quarters. Osan AFB constructed transportation containers that could be filled with vermiculite to contain any seepage. Then the United States Army provided a UH-60 Blackhawk helicopter to do the heavy lifting. On the first try the helicopter could not land due to the pad being obstructed by the local flora and fauna. The Det's 9S100s were then forced to prove that among their many skills, they were also accomplished lumberjacks. After hiking up the mountain they would have made Paul Bunyan proud. On the second try, the helicopter was able to land without a problem. SSgt Mike Belew led the crew in packing the batteries and loading them on the helicopter. Upon return to Camp Long, SSgt Morgan Young delivered the batteries to the HAZMAT pharmacy at Osan for proper disposal. Operation Duracell was successfully completed.

Another event, which is prominent on the Det's radar screen, is their preparation for the installation of the new Seismic Data Acquisition System (SDAS). Det 452 will be the first detachment worldwide to have this system that will support the Comprehensive Test Ban Treaty Organization (CTBTO). Support personnel such as SSgt's **Maldonado** and **Norton**, and the Det's 9S100s have been hard at work pounding grounding rods, ensuring the sites are ready for SDAS.

The Det continues to work closely with its partners from the Korean Institute of Geology and Mining (KIGAM) as the SDAS installation approaches. The Det was invited as guest of honor to the opening ceremonies for KIGAM's new Museum of Geology, a world class educational and research institute with the largest collection of rock core samples in this hemisphere. As the only American representatives in attendance, they were proud to represent our country at this special occasion.

As the holidays approached, the Det continued their annual tradition of raising money for the Chechon children's home, the local orphanage. The director (Jane **White**) continues hard at work expanding and improving the facilities as she prepares to take children all the way through their high school years. The donations of all AFTAC personnel and Alumni were greatly appreciated.

As the year came to a close the Det said goodbye to MSgt **Kidd**, SSgt **Norton**, and SSgt **Bannister**, wishing them all the best and looking forward to their continued success. Then they welcomed A1C **Bulckholz**, **Schmid** and **Lauser**, as well as MSgt **McMiller**. We know they will continue in the fine tradition of the Wizards of Wonju, the Fightin' 452nd, Combat Seismology!

AFTAC DOMINATES BASE AWARDS

FRED HAGANS, SMSGT AFTAC PA, MARCH

Patrick AFB, FL – The 45th Space Wing's annual awards banquet became a grand show for the Air Force Technical Applications Center. AFTAC placed six nominees in the seven categories and came away with an unprecedented four winners. AFTAC members earning recognition as the best in 2001 for the space wing were SrA. Stanley **Charamut**, Honor Guard Airman of the Year; SSgt. Edward **Pineda**, Honor Guard NCO of the Year; SrA. (now SSgt) Steven J. **Henshaw**, Airman of the Year; and TSgt. Leslie G. **Moore Jr.**, NCO of the Year. MSgt. Christopher **Wolfe** and Capt. Timothy **Shalick** were also AFTAC nominees in the Senior NCO of the Year, and Company Grade Officer of the Year categories respectively.

AFTAC NCO SELECTED FOR COMMISSION

FRED HAGANS, SMSGT AFTAC PA, MARCH

As a dedicated member of the Patrick AFB Honor

Guard, SSgt. Steven J. **Henshaw Jr.**, was a bit curious as to why he was being called away from his monthly training to meet the commander of Air Combat Command.

"I thought it was a meet and greet session. And since I'd just won the (45th Space Wing's) Airman of the Year award I was thinking this was probably the reason, but I was hoping it was for something more," Henshaw said.

"When I arrived the general (Hal M. **Hornburg**) introduced himself, and asked why was the red light flashing – for security or was it because someone had just received a direct commission into the Air Force Medical Service Corps? He just looked at me and shook my hand," Henshaw said, recalling his elation with the news.

Henshaw, a database applications programmer, will earn his BS in Business Information Systems in April via an online program through Bellevue University, in Offutt, Neb. After that it's on to Officer Training School in May, and finally, to the Air Force Personnel Center's Force Management Branch at Randolph AFB, Tex., where he'll begin his medical career as chief information officer.

AFTAC Civilian named 'Woman of the Year'

FRED HAGANS, SMSGT AFTAC PA, APRIL

"Ask not what your country can do for you, but what you can do for your country." Famous, inspiring words spoken by a former president and embraced by society. But few have realized the depths of this altruistic ideal. One who has is Brenda K. **Black**, a budget analyst with the command. Black was recently honored for her tireless community involvement - being named the 2002 Woman of the Year by the Brevard County Commission on the Status of Woman. The award is given for the previous calendar year and recognizes the person who best set a positive example for younger women.

Black was selected from a group of more than 20 nominees to receive the honor from the awards committee of the BCCSW. According to Brenda H. **Harris**, senior director for development at the Florida Institute of Technology and a member of the BCCSW, "The committee was impressed with Black's ability to identify the things that are important for her. She demonstrates these values through her behavior and communications in every phase of her life, family, career, community and church."

Picnic 'Thanks'

SSGT BRIAN 'SID' FEDORKO, AFTAC BOOSTER CLUB PRESIDENT

Thanks to all alumni volunteers who gave their time to make our annual picnic a success. It was a fantastic event which could not have occurred without your help. Again, thank You

FROM THE TOP

GEORGE MIRDA
VERSES

Please take out your pen(cil) and jot down these important dates on your calendar. The AFTAC/Long Range Detection (LRD) Alumni Association **Worldwide Reunion** will be held in Florida—tentative dates are **9-11 May, 2003**. We have started planning activities for the reunion and would like to keep you advised. Carl **Gailey** has stepped up to the plate and volunteered to function as the Chairperson for the 2003 Worldwide planning committee. This is a tough job, but Carl is up to the task and will have a great team to assist and advise him.

Now for some of the activities that are being planned. We will have a golf tournament on Friday 9 May 03 starting at 0800 hours at the Patrick AFB Manatee Cove Golf Course. I have taken the lead to plan the golf outing. On Friday night, an "Ice Breaker" will be held at the "Radisson at the Port" Hotel. In the past, this event has proven to be very popular and is a great time to get re-acquainted and tell lots of interesting tales.

On Saturday, A Family Day is being discussed. We hope to have a tour of the Headquarters Building and receive an unclassified briefing. However, as we all know, 9-11 has changed the way we live and could have an impact on this function. Even if this part of the festivities is cancelled, we still plan to have food and drinks at the rear of the AFTAC building, the location called the "Outback." If all goes well, the AFTAC Boosters Club will sponsor food and drinks.

On Saturday night, we will have our Banquet at the Radisson Hotel. We are going to have a 'cash' bar, dinner and a guest speaker. John **Carban** has volunteered to plan the program, obtain a guest speaker, and be the Master of Ceremonies. This should be an excellent evening of fun and camaraderie.

On Sunday morning, a breakfast buffet will be available at the Radisson. There will also be a "Hospitality Room" during the entire weekend of activities and Swede **Swansen** has agreed to lead the team that will man the room. In the past, this has been very popular.

As usual, Clark **Creery** is in the middle of planning for the reunion. Clark will be publishing the program and will make nametags for all atten-

dees. Jim **Payne** will be the focal for attendees and will ensure that funds are collected and that the database is kept current for the planned activities. We are looking for volunteers for the Registration and Family Day. If you are interested, please contact Carl **Gailey**. John and Chris **Horsch** will continue to update you on the reunion through the Post-Monitor.

Needless to say, we believe our long-range plans for the Worldwide Reunion are coming together nicely. We are confident that the Florida chapter will have an outstanding reunion and hope that you will include the Florida Reunion in your 2003 travel plans.

A Few Minutes from the Minutes

SUBMITTED BY OUR SECRETARY PETE TOWELL

March-May

Meetings are from 5:30 to around 640PM.

Constitution and Bylaws: Steve **Armitage** received a response from 45 SW/JA approving the revised constitution and by-laws.

Flag Pins: The Association is looking for a reasonable source of American flag pins for new annual members the first year they join. Jim **Payne** and Carl **Gailey** have lead on this item.

Carl **Gailey** provided an update on the status of reunion planning. He still needs volunteers for registration and family day. Once a final date is determined, a package will be assembled for the AFTAC Commander to review and approve. Carl will continue to provide updates at each meeting.

TSgt **Gross**, SRA **Kappel**, and A1C **Rodriguez** are working the 'Hall of Heritage' project for AFTAC. They have identified a number of facility and equipment issues and are actively working to get the project off the ground. They are seeking not only to catalog artifacts, but to build a historical archive in digital format to preserve many of the artifacts (particularly photos) which are starting to deteriorate due to age.

Jim **Payne** initiated discussion of the idea to publish the membership directory in the 'Post-Monitor.' This concept was approved.

COMMANDER'S RECALL

Background: In light of the ongoing process that is the command, a desire to record the impressions of this "from the top" and the notion we are entering a new millennium, we asked previous commanders to give us a synopsis of their time with the command. We received positive responses from almost every commander to include Gen's **Silliman, Gordon, Clapper, O'Lear, Bingham** and **Shaffer** and Col's **Meisenheimer**, and **Wigington**. We thank these gentlemen for taking the time and effort to share their enlightening remembrances.

We have respectfully requested inputs from AFTAC's two most recent 'past' Commanders, Col's Beatty and Dettmer. We feel confident they will reply as they find the opportunity in their busy active-duty lives.

We look forward to being able to pass on their 'Commander's reCall' ...

I REMEMBER...

LRD HISTORY BY THOSE WHO WERE THERE

PREPARED FROM READER INPUTS We solicit your **unclassified** memories of your career (events, people, etc.). Forward these to us at 'chrisjohn@juno.com' or ATTN Remembrances column, to the Alumni Address (see left column, page 2) - we will publish them as in the order received and as soon as we can. Thanks for your help.

No Inputs Received

BS (BARELY SUBSTANTIATED) TALES!

PREPARED FROM READER INPUTS. We solicit **unclassified** humorous tales about LRD events and people - recognizing these anecdotes may be Barely Substantiated (BS). Forward your BS to us at 'chrisjohn@juno.com' or ATTN BS column, to the Alumni Address (see left column, page 2) - we will publish them in the order received and as soon as we can. Thanks for your help.

Frank Calenda

EMAIL, 3/27/02

In the mind of the average person, AFTAC's 'cold places' conjures up images of gently formed snow-drifts, icebergs, and the rosy cheeks of the Eskimo peering out from within his furry hood. Eskimos everywhere it's cold? Well some people really do think that.

When I received notification of my impending assignment (it was the day after I returned from a 4 month TDY out of the 1155th), it conjured up images of a frozen nose, frostbit toes and cold, wet, clammy clothes. I didn't even like the sound of the word 'cold.' Somewhere in my hazy mind, it was also mentioned that it was a remote tour. All I could think of was that I finally was going to experience that cold day in hell that everyone talks about.

SSgt Bill Bridges was there at the airport to pick me up. I called it an airport but it more resembled major road construction. More like a mud path surrounded by more mud. The control tower was a little hut that one det person would go to on plane-day. The pilot would radio in when he was about a half hour away

and ask for a current weather report. It would go something like this, "Misty Mountain tower, this is Air Force One Fiver Three, over." "Go ahead One Fiver Three." "Please report on local conditions for a 30 minute arrival."

At this point, the door to the hut would be opened and the individual would stick his head out and review the, "local conditions". "Air Force One Fiver Three, this is Misty Mountain tower." "Go ahead tower." "One Fiver Three, right now I can't see beyond the door, we're having a little snow storm." "Right tower, should I return to home base?" "Hell no, Sir. You should be able to make it." "Tower, what's the wind reading?" "About 65 knots crosswind, One Fiver Three." "Still think I can make it?" "Sure." And so it went, with the plane nosing sideways at a 45 degree angle and the final touch-down where the wheels never spun, they just kind of slid to the end of the mudway. Welcome to our site.

At this point, I stuck my head out the door of the plane and was introduced to something called a white-out. It's kind of like looking at absolutely nothing. How the pilot found this place still causes me to lie in bed at night wondering.

That was 25 years ago. Bill took pity on me once we were comfortably seated in the det vehicle with the broken heater. I think his words were, "Don't worry Frank, it only gets worse." It was October and winter was coming on. I couldn't wait! Bill couldn't get the smile off his face; I was to be his replacement.

We headed for the station, which was aptly named Misty Mountain. God, what a sight to behold. God, this land was so diverse and intimidating. GOD, what am I doing here? Did I get You mad or something?

Arriving at the top, we passed the recording station and continued straight for the central complex. I noticed large telephone poles spaced about 50 yards from each other running from our station to the complex. My frozen brain only slightly registered the fact that there appeared to be a thick rope about 15 feet above the ground (mud) running from pole to pole. That's certainly not unusual, is it?

I settled into a certain routine and almost found myself enjoying the diverse and interesting life in a virtual no-man's-land. We had comfortable, well appointed rooms. A pool table. A fully equipped dark room. A small HAM radio station and a fully stocked club and bar facility. I said, "almost." We had to co-exist with the Navy. Well, there goes our little touch of heaven.

Snow stayed away for about two weeks. Then one morning when I attempted to leave the complex to walk to work, the door in the foyer wouldn't open. As I stood there cussing the Navy facility maintenance man, Bill came walking down the hall. He asked what my problem was. I told him the damn door was stuck closed. He still had that smile on his face when he pointed to the top of the foyer. It occurred to me that he wanted me to climb the little ladder, that I hadn't

ever noticed before and push up the little door at the top. As I peered out, I saw an endless stretch of white, smooth snow, and, facing towards the station, I saw the reason for those poles with the ropes. The ropes were now about arm-pit level and if one would take the time to don a pair of snowshoes and follow those ropes, they would lead right to the recording station.

As I remember, I called in sick that day! Only 11 months, 14 days, 18 hours, 27 minutes and 15 seconds before I can go home.

Jon Kempe
'The Missing Plug'

In the early 1970's our research arm thought we could improve our seismic capability using instruments designed for bore holes or wells. The short period type of seismometer designed for the borehole had been used very successfully. We now were going to use the "instrument from hell"; a long period tri-axis bore hole seismometer.

Geotech, our main supplier for this type equipment, just happened to have designed these "things" and would sell them to our organization for a pittance. The best place in the world to field test an array of these things would be in Korea, close to manufacture support, many available skilled technicians, easy communication, etc. The complete package consisted of three instrument modules (orientated in a 120 degrees array), a hole lock and cable connector modules. The whole package was 10' long, 12" in diameter and weighed around 250 lbs. To raise and lower this monster into a bore 150' deep required a bi-pod, portable electric hoist or a hand hoist, a portable generator (MiteLite) and a bunch of ten foot aluminum connecting rods. I, little Jon, and **Hartshorn** from Squadron, **Watwood** from Depot and several of the Detachment folks were enjoying raising/lowering these things over a period of several months attempting to get this system operational.

One day, I happened to be in the detachment building when we got a radio call from ROF "C", indicating that the instrument was installed and the three bags of pith balls (pea sized Styrofoam balls) did not fill the hole to the top. Watwood inquired, 'how far did you push the plug in?' What plug,' was the answer. We tried everything to get the instrument package back out, but the pith balls and the cable assembly would jam everything tight in the borehole. OLE Watwood (to whom I owe many beers) came up with the idea to flood the bore with water and float the balls out of the way. It worked!

After retiring from the USAF, I worked for the US Geological Survey (USGS) for a number of years which allowed me to use many surplus AFTAC items in the USGS earthquake research programs. The USGS scientific staff did spot some of these long period seismometers on a surplus list - boy, did I ever

express opinions on why we should not think about using this type of instrument, even if we can get them for free.

Winter Social – What a Turnout!

DEPOT FALLOUT NEWSLETTER, APRIL (VIA EMAIL, 4/15/02), DALE KLUG

What a turnout we had at the Luau Gardens in February for our Winter Social. Fifty-seven of us attended. This was the second time we went there and the food and service was just as good as before. A few of the regular attendees weren't there, but we had a number of familiar people we hadn't seen in quite a while. Walt and Judy Siemiller came from Fallon, Nevada, and Jim and Colleen Reed from Santa Rosa. A special thanks to Al/Ann Pavik for planning and setting this up.

Letters

Mary Welch writes: Heart-broken to read about the loss of Ben in your latest newsletter. I moved to the mid-West in November, and had not gotten the news until the Newsletter reached me at the end of February. He will be missed.

(Mary now lives in Rapid City, South Dakota. I would have to say that's a part of the real West and not too far from Denver. Welcome and hope you can make it down here for our picnic in June.)

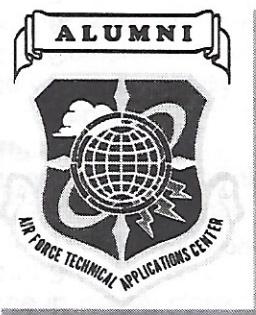

Dick and Gayla Platt write: Greetings from Booger Woods (a.k.a. Corsicana), Texas. We sure do miss Denver but we are really enjoying things like less people, less traffic, and less noise. We are still renting in town while our retirement home is built out on Lake Richard Chambers. The lake is over 44,000 acres of water with a 300 mile shoreline and is still in the early stages of development. Lot preparation is going slow but we hope to be in by the end of August. We are tentatively planning a trip back to Denver in June to include the AFTAC picnic.

Ya'll come and see us, hear. We'll treat you so many ways, you're bound to like one of them.

AFTAC Alumni Assn
P.O Box 254892
Patrick AFB, Florida 32925-0892

ADDRESS SERVICE REQUESTED

The emblem used by the alumni association (below) was in active service from 1970 to 2000 (the replacement is a less detailed rendering). The association continues the use of this version because so many alumni served while it was 'on duty.' When in use, it symbolized the unit and, in color, contains the AF (blue and gold) as well as the national colors. Blue alludes to the sky, the primary theater of AF operations; yellow, the sun and excellence of personnel. The globe indicates worldwide mission, locations and geophysical studies; the lightning and cloud depict study on natural phenomena and the compass points reflect the assigned tasks around the world. The rings around the globe symbolize electronic instrument readings and unity of purpose and display electronic measurements accomplished. The elliptical belt symbolizes the study of the atmosphere.
